

MAJESTIC SCOPE SCREEN

The Way The Director Intended

135 inch Majestic Screen in Cinemascope format. True screen shot using the BenQ W5000 and the new CA corrected Aussemorphic Mk3 4 element lens.

Did you know that over 75% of blockbuster movies are transferred to DVD in Letterboxed Cinemascope Format? Cinemascope format has been around for over 50 years and Movie Directors all over the world choose to make their films in this format because the impact, immersion, excitement and 'wow factor' is simply second to none.

Now you can re-create that unforgettable cinematic experience in your very own home! Be done with those annoying black bars once and for all.

Combine with the Australian first Aussemorphic Lens with the Majestic Scope Screen for the ultimate deluxe wide screen experience, just like the Cinema! See www.anamorphiclens.com.au for more info.

Cinemascope format setups are increasing in popularity every day. Do yourself a favour and invest in a high quality setup that won't burn a hole in your pocket.
